## COMMODORE'S MESSAGE

It is an honor and pleasure to serve as Commodore of MBYCA'S 2014 season. Any organization is only as good as the people that are involved in it, their dedication and commitment to the idles of MBYCA is what makes this organization very special. Today the recreational boating community is faced with increasing challenges on every front, from Port Security, Harbor Island access, Fuel Cost, DCR Leases, Federal/State Regulations, Education and the ever increasing Terrorist Threat, just to name a few. The recreational boater has to be conscious and alert of their surrounding at all times.

I would like to thank the member clubs and their delegates for their loyal continuous support, without them we would not exist. Their attendance at our monthly meetings are truly the backbone of this organization. They faithfully bring back to their clubs the information on current issues discussed each month, and generously donate to the maritime scholarship fund.

Please join us August 9th and 10th at our Rendezvous being held at Wessagussett Y.C. in North Weymouth Ma. A great time is planned for one and all, our fleet captain Russell Hoy will be posting fliers at all the clubs and taking your reservations for this great event.

Thanks to all who prepared their club information for this year's publication, We encourage you to support and patronize the advertisers, member clubs and the State/Federal information contained within this yearbook.

There are four people I would like to send a Special Thanks to, PC Cheryl Chisholm and her husband PC Ted Chisholm who without their friendship I would not have gotten involved in MBYCA. PC Russell Hoy and PC Peter Gilson, their constant support and direction has shown me I have very big shoes to fill, and welcome aboard Peder Acres, our new Rear Commodore.

I look forward to representing the interests of our member clubs in the upcoming year to promote favorable legislation, safe boating and camaraderie.

It has been a honor and a privilege to serve as your Commodore. May you all have a safe and pleasant boating season.

Sincerely,

William J. Latta  
Commodore 2014 MBYCA

## *Congratulations to*

**State Representative for the Second Norfolk District**

# **Tackey Chan**

*for earning the*

*Massachusetts Boating & Yacht Clubs Association*

*Legislator of the Year Award*

Tackey Chan is currently the State Representative for the Second Norfolk District, which is composed of thirteen out of thirty precincts in Quincy, Massachusetts. He was first elected in 2010 and sworn into office in 2011. He is currently serving his second term of office. He is the Vice Chairman of the Joint Committee on Community Development and Small Businesses, a member of the Joint Committee on Telecommunications, Utilities and Energy and a member of the Joint Committee on Consumer Protection and Professional Licensure. He is a former member of the House Committee on Global Warming and Climate Change. In 2010, Tackey was one of the three first State Representatives of Asian American descent elected to the Massachusetts House of Representatives, and is the first Asian American elected to office in the City of Quincy.

Tackey worked as an Assistant Attorney General in Attorney General Martha Coakley's Office of Ratepayer Advocacy from 2007 to 2010. As a regulatory attorney in this division, he represented the interests of residential, commercial and industrial utility consumers at adjudicatory proceedings before the Massachusetts Departments of Public Utilities and Telecommunications and Cable. His duties included opposing rate increases proposed by utility companies, investigating service quality issues, interfacing with low income advocates and monitoring energy conservation efforts. Prior to the Attorney General's office, he worked as General Counsel and Legislative Director for State Senator Michael W. Morrissey from 1995 to 2007. In addition to acting as a liaison for both the state

and municipal offices, during this time he was also responsible for overseeing and addressing a wide-range of policy issues concerning the electric and gas industries, telecommunications, alcohol and professional licensing, identity theft, gaming, consumer law, media relations, constituent services, and the state budget. Tackey also has practical experience in the private sector. He worked as an information systems administrator at Onsett International for four years, founded his own part-time, private law practice and has appeared as an actor in local television commercials.

In 2003, Tackey received his Juris Doctorate from New England School of Law and was admitted to the Massachusetts Bar. He graduated from Brandeis University in 1995 with a Bachelor of Arts in Politics and from Boston College High School in 1991. In Quincy, he attended both Beechwood Knoll Elementary School and St. Ann's School in Wollaston.

In addition, Tackey is licensed to appear in the Federal District Courts of Massachusetts and United States Court of Appeals for the First Circuit, possesses a Massachusetts real estate broker's license, and is a Notary Public and Justice of the Peace. He is a member of the Massachusetts Bar Association, Boston Bar Association, Asian American Lawyers Association of Massachusetts and Norfolk County Bar Association. He is also a member of the Screen Actors Guild.

Tackey is proud of his extensive record of volunteer service in the local community, which includes work for numerous collaboratives, commissions and non-profit organizations over the past 13 years. Currently, he continues his work with Quincy Asian Resources, Inc., a multi-service organization that he helped found and which he served as a board president (2001-2004) and board treasurer (2006-2007). In addition, he served as a board member of both Work, Inc., a company dedicated to the empowerment of people with disabilities, and Quincy Community Action Programs (QCAP), the South Shore's anti-poverty agency.

Tackey's exemplary community service lead then Senate President Robert Travaglini to appoint him to the Massachusetts Asian American Commission in 2006. In 2007, he was reappointed by the Massachusetts Attorney General Martha Coakley to represent her on the Commission. During his term on the Commission, he has actively served as the Vice-Chairperson (2007-2008) and Chairperson (2008-2009). At the same time, he also has been serving on the Ward 5 Neighborhood Association Executive Committee, the neighborhood association dedicated to improving the quality of life for the residents in Ward 5, since 2008. He was a member of the Quincy Zoning Board of Appeals in 2009. Additionally, Tackey has been a member of the Ward 5 Democratic City Committee since 2000 and has been a delegate to numerous Massachusetts Democratic Conventions.

Tackey's civic-mindedness has earned him several recognitions. In 2013, he received the South Shore Stars Rosemary Wahlberg Child Care Advocate Award. In 2011, he received the Asian Community Development Corporation Inspiration Award. In 2010, he received the Quincy Asian Resources, Inc. Founder's Award and the South Shore Stars 40 under 40 award. In 2009, he received the City of Quincy Human Rights Commission Martin Luther King Community Service Award. He was also the recipient of the Episcopal Parish of St. Chrysostom's Church's 2008 Honoree for his community work in Quincy. And in 2001, he received the Asian American Lawyers Association of Massachusetts Scholarship.

Tackey is a current and life-long resident of Quincy. His brother, sister-in-law, nephew and mother also live in Quincy.

# INVITATION

## INTERNATIONAL CHAMPIONSHIP REGATTA

August 10-15

Savin Hill Yacht Club

Thunderbird Class ~ 56<sup>th</sup> Anniversary 2014

Massachusetts Bay Thunderbird Fleet #5

*If you love the tranquility of the sunset beyond the horizon,  
the orange-purple sky reflecting in the deep blue colors of the sea;  
if you love the salty spray and wind in your face and the  
feeling of youth no matter your age; if you love the rushing  
water's song under your keel, the calling sounds of seagulls and  
the moonlit bay on a balmy summer night – you are one of us.  
Welcome to the sea, skipper!*

*If you love the excitement at the docks, the rounding of a buoy,  
the beating to the wind and the run with the spinnaker;  
if you love the races, fierce competition, the regattas and the limelight  
of victory, the trophies you cherish, the fellow you beat;  
if you love the speed of your boat, the gunwale awash, the pressure  
on your tiller and the sky above – you are one of us.  
Welcome to the sea, skipper!*

*We invite you to join us to admire the sunset on our cruises,  
to take home the trophies on our races. The Massachusetts Bay Thunderbird  
Association, Fleet 5, invites, welcomes all, who love the sea to join us.*

*You too, skipper.*

**Captain Peter & Carol Gilson**

## – Yacht Club of the Year – *Braintree Yacht Club*

The Braintree Yacht Club is located on the Monatiquot and Weymouth Fore Rivers at 9 Gordon Road, Braintree, Massachusetts.

A Town Meeting Warrant in 1940 designated a portion of Watson Park for use by the Braintree Yacht Club. The Club was incorporated 1942 with thirteen local yachtsmen signing the “Articles of Organization”; Harry T. Sears, Braintree Deputy Fire Chief, Seward Taber, Town Moderator, John Naples, Mortimer N.

Peck, John M. Peterson, Walter H. Loud, Alfred J. Thomas, Arthur E. Mann, Wallach H. Homes, Andrew Bagonzi, Albert C. Lyttle, Justin E. Wright, and Charles G. Jordan. Most were Braintree Residents. Harry Sears was elected Commodore under the new charter.

The original location of BYC was on a piece of the old Sheppard’s Coal Co. yard, opposite the now former Braintree Electric Light Plant. Because of the bridge at Quincy Ave. and lack of water at low tide, the larger boats could not tie up to the dock, therefore no clubhouse was ever built on this site. The aforementioned yachtsmen sought a more convenient location to meet their varied needs. The former site of Thomas A. Watson’s Fore River Boat and Engine Co. now owned by the Town of Braintree was favored. Accordingly, an article was inserted in the Town Meeting Warrant in 1940 allowing BYC to construct, maintain, and operate buildings and landings for its own use.

John Naples, a local builder of quality homes provided a set of plans for the clubhouse. The club had only \$600 in the treasury however, decided to go ahead and place a foundation where Watson’s canoe house once stood. John Naples promised that any surplus cement from his building projects would be sent to the club. Without a promise of payment, John Naples went ahead and had his carpenters build the clubhouse. The club later raised the money to repay John by having a carnival and a bond issue. The clubhouse was 864 sq. ft. with a fireplace and basement. In 1987 a garage with a roof deck was added to the rear of the clubhouse. A large addition was added in 2005 bringing the upper and lower levels to 2376 sq. ft. each. Both projects were completed by club members and headed up by P.C. Fred Goodwin.

Originally, boats were moored on logs in the river. With a membership of up to 175, the club now has a modern dock system with a total of 126 slips with water, electricity and a pump-out dock. We welcome members of MBYCA.

The Braintree Yacht Club sponsors a sailing program at Sunset Lake and makes the clubhouse available to the East Braintree Civic Association, Braintree Youth Baseball, Cub Scouts and has an annual Senior Citizens Day Cruise. The function hall is available for rental to members only.

*Serving the New England maritime community since 1827.*

Operating in the ports of Boston, Portsmouth, NH, and Portland, ME.

Coming Alongside the Maritime Community  
with Friendship, Faith, and Hospitality

Our economy depends on ships to bring over 95% of all goods we enjoy daily to our shores. Seafarers from all over the world operate these ships while often working in dangerous, lonely, and stress-filled jobs. These seafarers spend four to eight months away from the families they work to support. Unappreciated and underpaid, these seafarers face difficult days at sea to bring us the goods that we want and need.

Seafarer's Friend visits crews daily, often providing the only faces of humanity seafarers will meet for several months; other than security or company personnel. Seafarers deeply value the relationships of care, compassion, and practical assistance offered by Seafarer's Friend.

As ambassadors of our community, our staff and volunteers visit ships daily to offer these vital services:

- SIM/Phone/Internet to connect with family at home
- Ditty bags filled with donated personal care items
- Hand-knitted scarves and caps
- Warm clothing for those unprepared for New England winters
- Van rides to area stores; a chance to feel normal for a few hours
- Magazines to remain current with world affairs
- Security escorts through terminals to allow time ashore (required by USCG regulations)

Most vital is the support and encouragement, which we provide to seafarers in times of stress, loneliness, or conflict/tension between multi-cultural crew members.

Seafarer's Friend relies on donations from the community and volunteers. Without your help, we could not serve these seafarers who provide us with the clothes on our backs, the new cars at our dealerships, the salt on our roads, as well as energy for our cars and homes.

If you would like more information about Seafarer's Friend, or are interested in volunteering, please:

**Call us at (617)-889-3222**

**Email us at [admin@seafarersfriend.org](mailto:admin@seafarersfriend.org)**

**Check out website [www.seafarersfriend.org](http://www.seafarersfriend.org)**

## The Inn at Crystal Cove

ON BEAUTIFUL BOSTON HARBOR

**617-846-9217**

**1-877-966-8447** (Out of State Only)

600 Shirley Street • Winthrop, MA 02152

Fax: 617-846-9274 • email: [ccove@tiac.net](mailto:ccove@tiac.net)

Website: [www.inncrystalcove.com](http://www.inncrystalcove.com)

The Inn at Crystal Cove is a comfortable, colonial-style inn located in a residential neighborhood of Winthrop, MA.

The Inn offers rooms with balconies, ocean views, and ten studio apartments with private kitchens, for a total of 35 rooms.

In addition, we have two beautifully renovated two-bedroom condominiums with water view decks that sleep up to seven.

### Across the street from the Winthrop Yacht Club and the Crystal Cove Marina

Winthrop is a pleasant seaside town conveniently located just ten minutes from Logan International Airport and only a short distance by car or public transportation from downtown Boston. The Inn overlooks Crystal Cove, a part of scenic Boston Harbor, with a beautiful, unobstructed view of the harbor and Boston skyline. Boats from yacht

clubs adjacent to the Inn enhance the New England seaside atmosphere. Enjoy the view from our swimming pool and landscaped yard.

There is also a park with basketball courts located next to the Inn. We offer furnished rooms in a friendly, casual atmosphere, at sensible rates. Complete living facilities are available for our guests' use: a fully-equipped kitchen, lounge area, laundry, and well-lit parking lot. Parking, WiFi, and local outgoing calls are free to guests. All rooms have air conditioning, cable televisions, and telephones.

### The Inn at Crystal Cove

Please check our website for current rates.

## HULL YACHT CLUB

Post Office Box 796 • 5 Fitzpatrick Way  
Hull, MA 02045  
781.925.9739

**Commodore:** Lenny Russell

**Vice Commodore:** Rich Quebec

**Rear Commodore:** Richard Peirce

**Treasurer:** Raymond Kasperowicz

**Secretary:** Ralph Brown

**Past Commodore:** Noel Ripley

**At Large:** Kevin Logue, Jim Ray, Douglas Ryan

*Voted 2013 Yacht Club of the Year by Mass Bay Sailing Association*

*Home of the Great Chase*

*Home of the Race Hull Regatta*

The Hull Yacht Club, founded in 1880, is located directly on Allerton Harbor in Hull. One of the oldest yacht clubs in America, the club has a rich history of yacht racing and cruising. The current membership has a mix of sail, power and social-only members. Allerton Harbor is well protected from all points of the compass. The varied anchorages of the Boston Harbor islands are just minutes away, while many picturesque North and South Shore harbors are an easy weekend cruise.

We hope you find these local tide charts useful. Please be aware that all tide charts are really just predictions and assume average weather conditions. Usually, onshore winds or low barometric pressure will produce higher tides than predicted and vice-versa.

While we take a lot of care to make these charts as accurate as possible, the MA Marine Trades Association does not warrant the accuracy, completeness, or fitness for a particular purpose of any tide, sun, and lunar information offered through this service. Under no circumstances shall the MA Marine Trades Association be liable to you or any other person for any indirect, special, incidental, or consequential damages arising from the use of this service.

We hope you find these local tide charts useful. Please be aware that all tide charts are really just predictions and assume average weather conditions. Usually, onshore winds or low barometric pressure will produce higher tides than predicted and vice-versa.

While we take a lot of care to make these charts as accurate as possible, the MA Marine Trades Association does not warrant the accuracy, completeness, or fitness for a particular purpose of any tide, sun, and lunar information offered through this service. Under no circumstances shall the MA Marine Trades Association be liable to you or any other person for any indirect, special, incidental, or consequential damages arising from the use of this service.

We hope you find these local tide charts useful. Please be aware that all tide charts are really just predictions and assume average weather conditions. Usually, onshore winds or low barometric pressure will produce higher tides than predicted and vice-versa.

While we take a lot of care to make these charts as accurate as possible, the MA Marine Trades Association does not warrant the accuracy, completeness, or fitness for a particular purpose of any tide, sun, and lunar information offered through this service. Under no circumstances shall the MA Marine Trades Association be liable to you or any other person for any indirect, special, incidental, or consequential damages arising from the use of this service.

*"I manage the docking and refitting of 200 vessels. So when it came to refitting my own yacht, I chose Portland Yacht Services."*

*—Master Mariner John H. Bowering (Adm. Ret.) aboard his yacht, Osprey*

As a professional fleet manager, John knows all the pitfalls of working with a boatyard. But after having Portland Yacht Services re-instrument; rebuild the engine and gearbox; rewire and re-plumb; and soda-blast and recoat Osprey's hull, he says, "I'm entirely impressed with their skills, quality of work and ability to come up with practical solutions to seemingly intractable problems. And they're great fun to work with!"

Our team has the experience, training and certification to efficiently handle all your needs.

*We invite you to visit our marina and boatyard near the historic Old Port, by land or sea, today! Check out our qualifications at [portlandyacht.com](http://portlandyacht.com)*

# POINT OF PINES YACHT CLUB

REVERE, MASSACHUSETTS

*Celebrating 100 years*

1914 -2014

The Point of Pines Yacht Club was founded in 1914 and this year therefore marks its 100<sup>th</sup> Anniversary. The founding members of the POPYC established a club that was socially active centering around many boating activities such as regattas and club cruises. For the first nearly 50 years boats were moored in the river; now the club features a modern marina that accommodates nearly 70 boats of all lengths. The present club is a vibrant community of boaters who take full advantage of the club's excellent proximity to Mass Bay for fishing, cruising, special trips to Boston and the Harbor Islands, and a wide range of land-based functions highlighted by the Blessing of the Fleet in June. MBYCA members are welcome to visit the POPYC to help celebrate the 100<sup>th</sup> Anniversary.

## Stay Safe on the Water.

### 1. NAVIGATION RULES (RULES OF THE ROAD)

Boaters call navigation rules – the basic laws governing the steering or sailing of a boat – “The Rules of the Road.” The Rules of the Road define the roles and responsibilities of vessel operators. If all operators obeyed these rules, most accidents could be avoided.

One of the reasons the Rules of the Road exist is to keep boats from colliding with each other and with other objects. Since collisions are the number one type of accident on the water, boaters should remember the following Rules of the Road.

#### INFO

*The Rules vary slightly depending on whether you are boating on inland or on international waters. As an example, when operating on inland waters, sound signals are signals of **intent**; when operating on international waters, they are signals of **action**.*

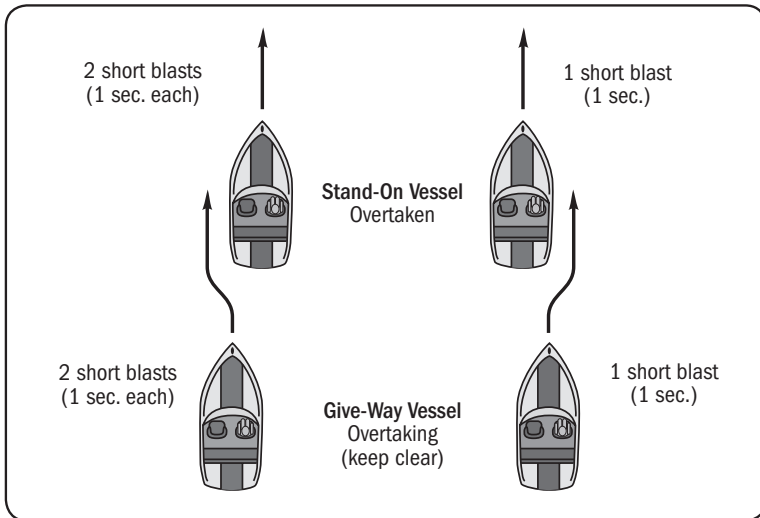

**Post a lookout.** Designate someone to watch for dangers that may come from any direction.

**Maintain a safe speed.** Except where speed is restricted by regulation or the waterway is marked by a “No Wake” or “Slow Speed” Aid, you must judge “safe speed” for yourself, taking into account visibility, vessel traffic, your boat’s ability to maneuver, and the weather conditions.

**Avoid a collision.** The Rules of the Road include the actions to take when encountering another vessel on the water. Some of the most common situations you may encounter are: overtaking, meeting head on, and crossing the bow of another vessel. In each case, the boat designated as the “give-way” vessel is required to yield to the other boat, while the boat designated as the “stand-on” vessel should maintain its course and speed.

**Overtaking Situation (Navigation Rule 13)**

**Action(s):** The give-way vessel (bottom) can pass on either side of the stand-on vessel (top).

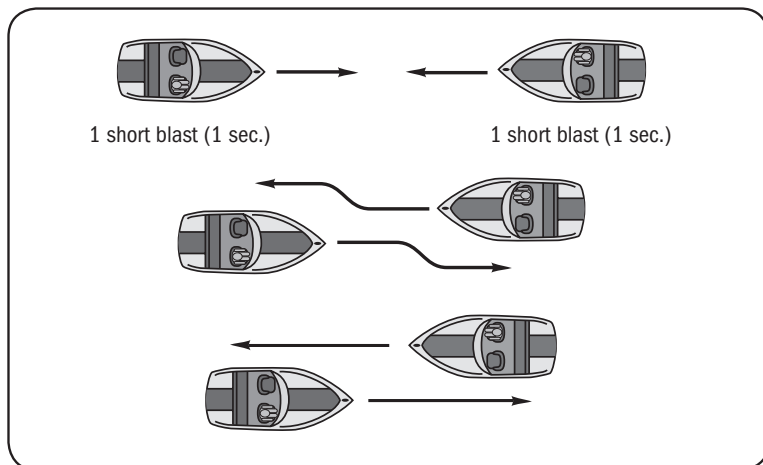

**Sound signals, inland:** Passing portside requires two short (1-second) blasts on the horn signaling the overtaking boat’s intention, and two short blasts for the stand-on vessel’s agreement. Passing to starboard requires one short blast for intent and agreement.

**Sound signals, international:** Passing portside requires two prolonged (4-6 seconds) and two short blasts for the overtaking boat’s intention, two short blasts for the stand-on vessel’s agreement. Passing to starboard requires two prolonged and one short blast for intention. An agreement signal is only required when operating in a narrow channel or fairway; then the following blast pattern signals your agreement: one prolonged/one short/one prolonged/one short.

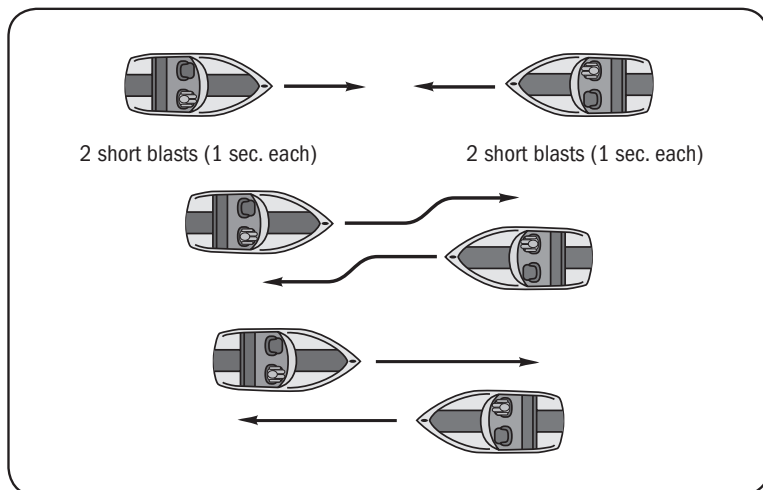

### Head-On Situation (Navigation Rule 14)

Port-to-Port Passing (preferred)

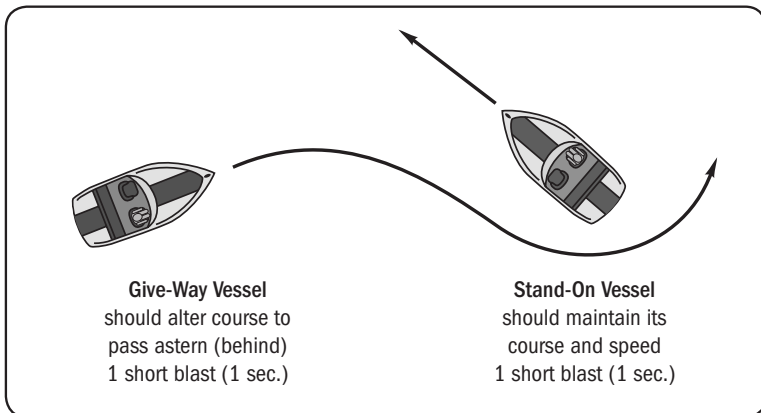

Starboard-to-Starboard Passing

**Action(s):** When meeting another vessel head on, a port-to-port passing is preferred. Passing starboard-to-starboard is acceptable when necessary.

**Sound signals:** Passing port-to-port requires one short horn blast to signal intention and one short blast for agreement. Passing to starboard requires two short blasts from each vessel.

## Crossing Situation (Navigation Rule 15)

**Action(s):** In a crossing situation, the give-way vessel must act to avoid a collision. This may include altering its course to pass astern of the stand-on vessel or slowing down. The stand-on vessel should maintain its course and speed.

**Sound signals, inland:** The give-way vessel signals the stand-on vessel with one short horn blast. The stand-on vessel agrees with one short horn blast.

**Sound signals, international:** The give-way vessel signals the stand-on vessel with one short horn blast. No agreement signal by the stand-on vessel is required.

**When meeting another boat, make early and substantial changes to your course. This helps the other operator understand your intentions.**

**INFO**

There is much more to the Navigation Rules than can be covered here. For more information, go to [www.uscgboating.org](http://www.uscgboating.org) or [www.navcen.uscg.gov](http://www.navcen.uscg.gov).

## 2. THE ESSENTIAL MARKERS: On the Water and On the Charts

The two main types of Aids to Navigation are buoys and beacons.

**Buoys** are Aids that float on top of the water, but are moored to the bottom of the body of water. Some have a light affixed to the top; some do not. A buoy with a cylindrical shape and a conical top is referred to as a "nun." A buoy with a cylindrical shape and a flat top is called a "can."

**Beacons** are Aids that are permanently fixed, most commonly to the bottom of a

body of water. A beacon that has a light attached is simply referred to as a "light"; a beacon without a light attached is called a "daybeacon."

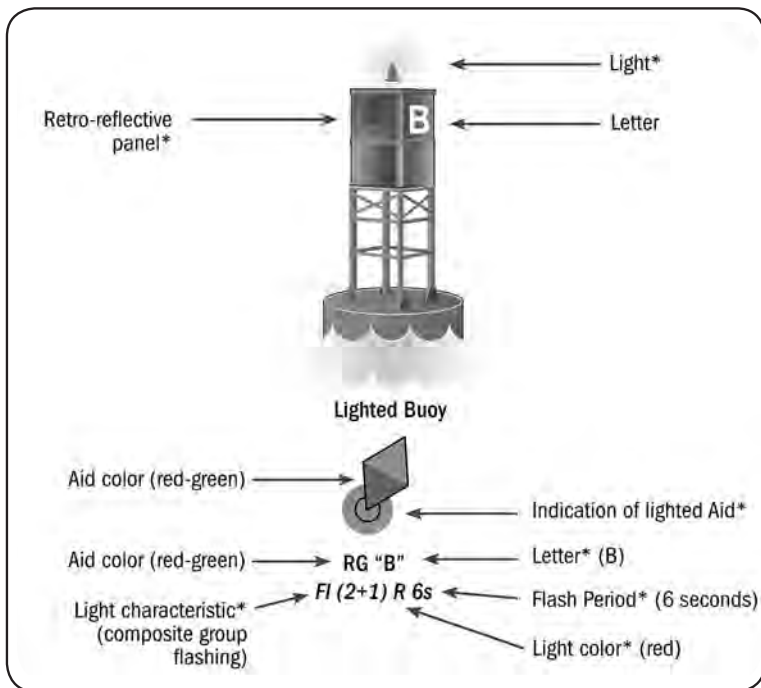

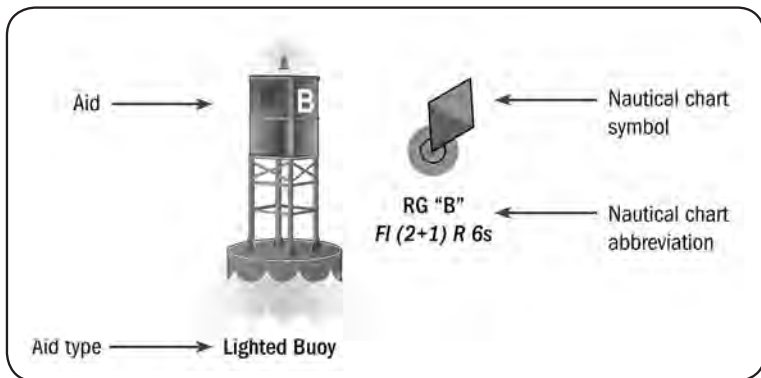

Both buoys and beacons can provide a variety of navigation information via shape, color, light, and/or audible signal.

**Dayboards** are informational signboards. The term **topmark** refers to a non-lighting element, such as a sphere, that may be affixed to the top of an Aid.

<p>RED LIGHTED BUOY</p>  <p>R "4" Q R</p>	<p>GREEN CAN BUOY</p>  <p>G C "5A"</p>	<p>RED/GREEN NUN BUOY</p>  <p>RG N "CF"</p>
<p>RED LIGHT</p>  <p>Fl R 4s 30R 6M "4"</p> <p>Red: always even numbers</p>	<p>GREEN LIGHT</p>  <p>Fl G 4s 15R 5M "5"</p> <p>Green: always odd numbers</p>	<p>RED DAYBEACON</p>  <p>R "2A"</p>

### Understanding the Symbols in This Booklet

Buoys, beacons, and all other Aids have a corresponding symbol used on nautical charts. In this booklet, you will see representations of Aids, each alongside its nautical chart symbol:

\* Not on all Aids

### 3. U.S. AIDS TO NAVIGATION SYSTEM (IALA-B)

#### Lateral Aids to Navigation

Lateral Aids to Navigation are generally used for well-defined channels to indicate the route to be followed. These Aids show the sides of a navigable channel, mark junctions and forks or splits in the channel, indicate the safe side to pass a hazard to navigation, and mark the safe centerline on wide bodies of water.

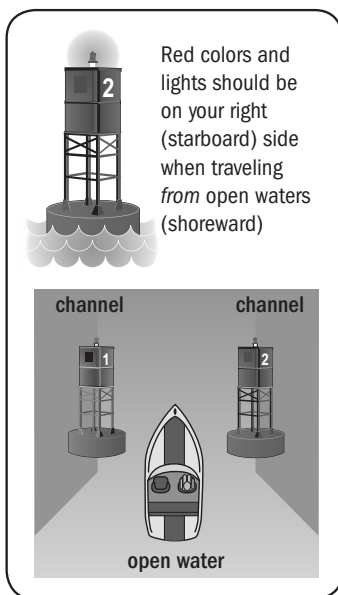

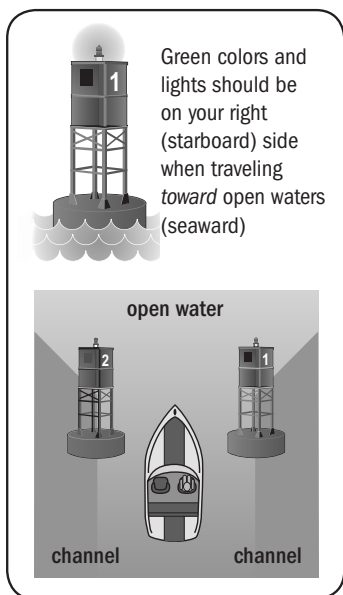

They are used in conjunction with a conventional direction of buoyage (a local direction of buoyage when approaching a harbor, river estuary, or other waterway from seaward).

#### “Red, Right, Returning”

You may have heard the phrase, “Red, Right, Returning.” This expression refers to the fact that when returning (entering a channel from the open sea or proceeding upstream), a boater must keep the red Aids on the right (starboard) side of the boat. These Aids have even numbers, and the numbers should increase as you proceed inland.

When proceeding toward open water (seaward), navigate so that the green Aids are to starboard. In this instance, you will see odd numbers on the Aids and the numbers should decrease as you proceed toward open water (seaward).

If there is no route marked, navigate clockwise around landmasses.

## Aids To Navigation

### Waterway Marking Systems <> Channel Buoys

#### LATERAL SYSTEM (FEDERAL)

The waters of the United States are marked for safe navigation by the lateral system of buoyage. This system employs a simple arrangement of colors, shapes, numbers and light characteristics to show the side on which a buoy should be passed when proceeding in a given direction. The characteristics are determined by the position of the buoy with respect to the navigable channels as the channels are entered from seaward.

The expression “red right returning” has long been used by the seafarer as a reminder that the red buoys are passed on the starboard (right) side when proceeding from the open sea into port (upstream). Likewise, green buoys are passed on the port (left) side. Conversely, when proceeding toward the sea or leaving port, red buoys are passed on the port side and green buoys on the starboard side. Red buoys are always even-numbered. Green buoys are odd-numbered. Red and white vertically striped buoys mark the center of the channel.

#### MOORING TO BUOYS

Tying up to or hanging on to any navigation buoy (except a mooring buoy) or beacon is prohibited.

#### AIDS TO NAVIGATION

In recent years, modification to certain aids to navigation located on coastal and inland waters have been completed. These changes apply to aids used in both the lateral and state waterway marking systems. See charts that follow:

- Port-hand buoys are painted green, with green fixed or flashing lights.
- Starboard-hand buoys are painted red, with red fixed or flashing lights.
- Safe water buoys, also called midchannel or fairway buoys, and approach buoys are painted with red and white vertical stripes, with flashing lights.
- Preferred channel, or junction buoys, are painted with red and green horizontal bands, with flashing lights.
- Special marks (traffic separation, anchorage areas, dredging, fish net areas, etc.) are painted yellow. If lighted, the light may be fixed or flashing.

### Uniform State Waterway Marking System

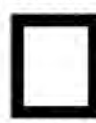

**Boats Keep Out:**  
Nature of danger may be placed outside the crossed diamond (e.g. waterfalls, swim areas or rapids)

**Danger:**  
Nature of danger may be indicated inside the diamond shape. (e.g. rocks, reefs, dams, construction or snags)

**Caution:**  
Controlled Area as indicated in circle. (e.g. speed limit, no fishing, no anchoring, ski only, slow - no wake)

**Information:**  
Tells direction, distances, places, food, repairs, supplies and other non regulatory messages.

**Obstruction Marker:**  
Cardinal Buoyage Marker System. Do not pass between shore and buoy.

**Channel Marker:**  
Lateral System. Keep Buoy on left facing upstream.

**Mooring Buoy:**  
White with reflectorized blue band. May have white light or reflector.

**Channel Marker:**  
Lateral System. Keep Buoy on right facing upstream.

**Divers Exercise Caution!**  
The Divers Down flag means that divers are in the water. A rigid replica of the Alpha flag means that the vessel is restricted in its availability to maneuver because of underwater operations.

### Information and Regulatory Marks

These orange-and-white Aids are used to alert vessel operators to various warnings and regulations.

Symbol	Meaning	Examples
	<b>Danger</b> A diamond shape alerts boaters to hazards	
	<b>Restricted Operations</b> Marks with a circle indicate areas with regulated operations	
	<b>Exclusion</b> A diamond shape with a cross means boats are prohibited from the area	
	<b>Information</b> Marks with a square provide helpful information such as directions, distances, and locations	

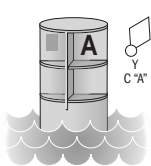

#### Characteristics

- White with an orange horizontal band at both top and bottom.
- Black text within or around an orange square, circle, or diamond; or black text outside a diamond with an orange cross.
- May be buoys or beacons.
- If lit, the light will be white and may have any light rhythm except quick flashing, flashing (2), or Morse code "A."
- The chart symbol for this type of buoy is:

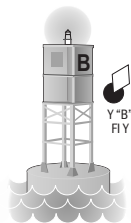

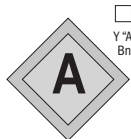

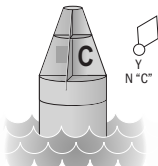

### Special Aids

These Aids indicate special areas or features such as anchoring, traffic separation, fishnet area, cables or pipelines, military exercise areas, and jetties.

Unlighted

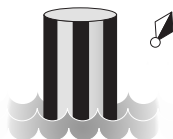

Lighted

#### Characteristics

- All-yellow.
- Come in a variety of shapes.
- May have one black letter.
- If lit:  or 

### State Waters Obstruction Mark

The State Water Obstruction Mark indicates to a vessel operator that an obstruction to navigation extends from the nearest shore to the buoy. Do not pass between the buoy and the shore.

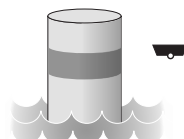

#### Characteristics

- Black-and-white vertically striped buoy.
- May show a white reflector or display a quick-flashing white light.

### Mooring Buoys

While not a navigational Aid, mooring buoys are worth mentioning. They are the only type of buoys to which mooring is permitted. Most mooring buoys are privately owned or are rental buoys. Permission is usually needed to use them.

#### Characteristics

- White with blue horizontal band.
- Cylinder and sphere shapes.
- May show a white reflector or display white or yellow light.

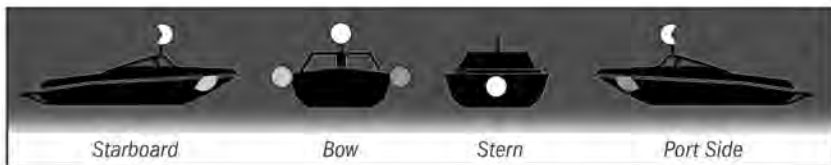

## 4. BOATING AT NIGHT

Boating at night can make even familiar waters unrecognizable. Visual depth perception is lessened and lights from the shore can be difficult to distinguish from those on the water. To make nighttime boating safer, keep the following in mind.

### Navigation Lights

Vessels are required to show navigation lights from sunset to sunrise and during periods of restricted visibility. Understanding these light displays will provide invaluable information to the boater, as these lights can help the boater determine the length of another vessel, its orientation in relation to your boat, and the general direction in which it is headed. All operators must ensure that their vessel's navigation lights are working and that the positioning and distance from which they can be seen meet federal regulations.

It is important to know which navigation lights you will see from another boat in certain situations. This can help you determine if you are in an overtaking, meeting, or crossing situation. The following chart illustrates the navigation lights you will see from various angles:

### INFO

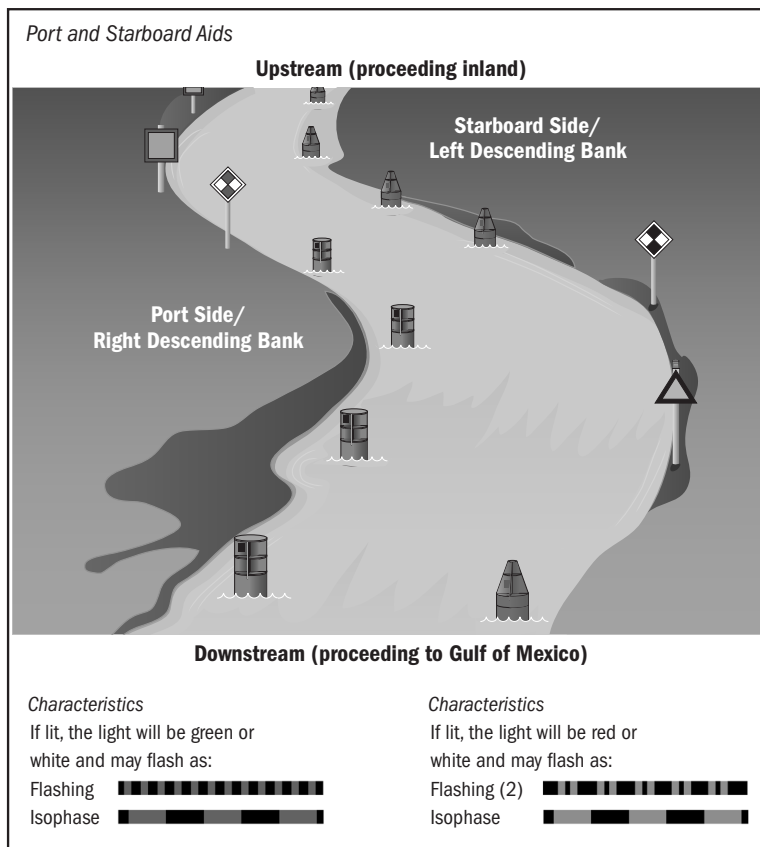

Whenever you see a red navigation light from another vessel, give way. It is the stand-on vessel. According to the Rules of the Road, it has the right of way (see page 2).

If you see both the red and green sidelights of another boat, it is coming straight toward you. You should take action to change course in order to avoid a collision.

## 5. AIDS TO NAVIGATION SYSTEMS

### Western Rivers Marking System

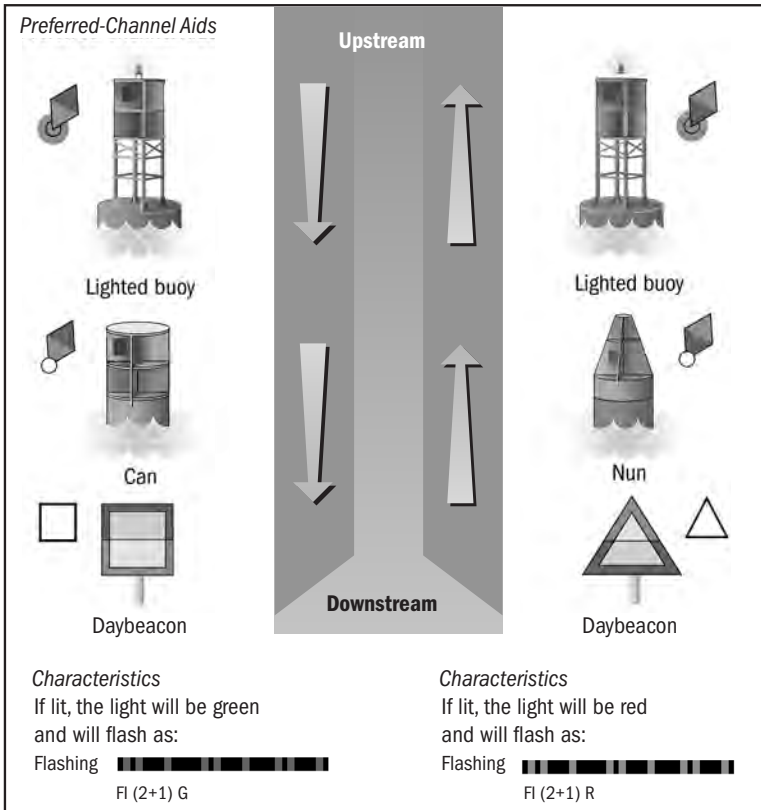

When on the Mississippi River, tributaries above Baton Rouge, and several other rivers that flow toward the Gulf of Mexico, boaters must follow a system called the Western Rivers Marking System, a variation of the U.S. Aids to Navigation System.

In the Western Rivers Marking System:

- Buoys are not numbered.
- Beacons are not numbered, but normally have a mile marker that indicates the distance in statute miles from a fixed point, typically the river's mouth.

- Crossing daybeacons are used to assist river traffic by indicating where the channel has changed from one side of the river to the other; the aid that marks this channel change will be on the opposite side of the river. When encountered, a vessel operator should head for the Aid, using its color as a channel mark.
- Isolated danger marks and safe-water marks are not used.
- River banks are named based on their downstream direction: either "left bank" and "right bank" or "left descending bank" and "right descending bank."
- Because of their somewhat temporary nature, Western River buoys do not have numbers or letters and are not always marked on river charts because they tend to drift due to fluctuating water level, current speed, and shifting shoals.

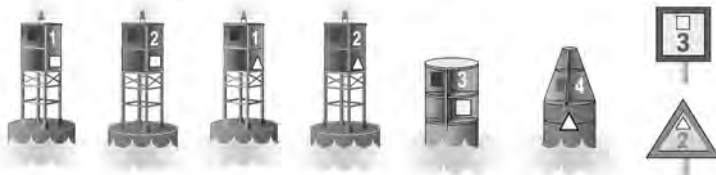

### Intracoastal Waterway

The Intracoastal Waterway (ICW) runs just inland and parallel to the Atlantic and Gulf coasts from Manasquan, New Jersey to the Mexican border. The Aids to Navigation of the ICW closely resemble the green and red buoys and beacons of the lateral system previously discussed.

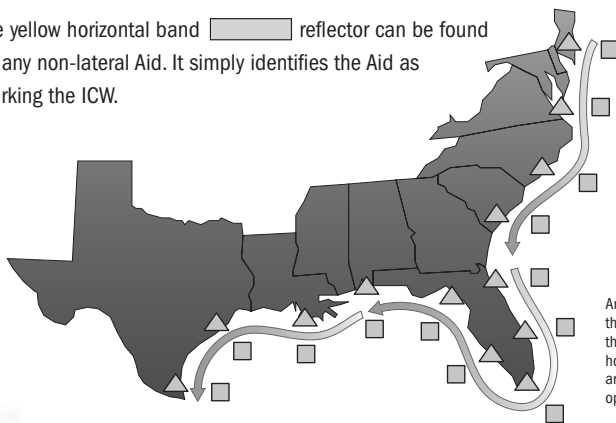

When operating in the ICW, the color of the Aids will typically correspond to the USATONS scheme (Red, Right, Returning). The yellow squares, triangles, and bands attached to the Aids are the primary ICW indicators. Boaters need to understand these markings to safely navigate the ICW. Some examples:

There are three types of symbols:

When following the ICW from New Jersey through Texas, keep yellow triangles  on your starboard and yellow squares  on your port, regardless of the color of the Aid on which they appear.

The yellow horizontal band  reflector can be found on any non-lateral Aid. It simply identifies the Aid as marking the ICW.

Arrows do not indicate the actual location of the ICW. Arrows depict how aids to navigation are oriented when operating in the ICW.

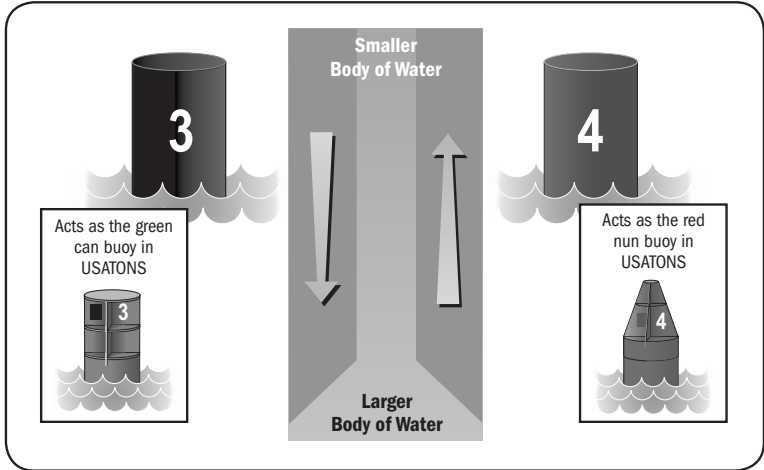

*ICW beacons and buoys do not correspond to IALA-B's color system because ICW and non-ICW routes may travel next to each other in opposing directions – and share the same Aids. Thus, when following the ICW, navigate by the yellow symbols; otherwise, navigate by the color of the Aid itself.*

### Uniform State Waterway Marking System

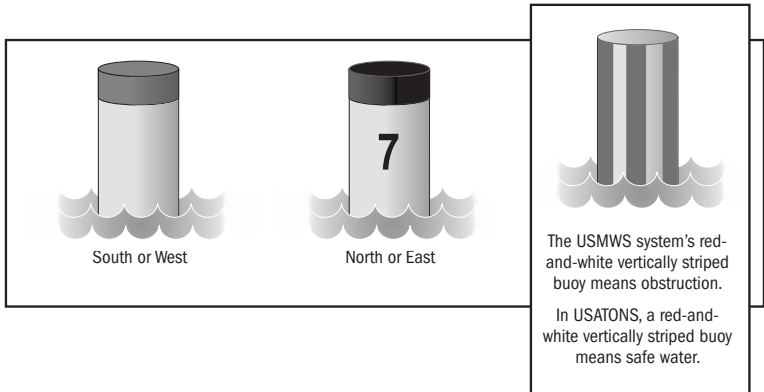

The Uniform State Waterway Marking System (USWMS) was discontinued and replaced by the U.S. Aids to Navigation System (USATONS) in 2003. Should you come across one that has not yet been replaced, a guide is provided below:

#### Lateral System – USWMS

#### Cardinal System – USWMS

Cardinal buoys serve as the USWMS version of USATONS' preferred-channel markers, as they indicate the primary route. They are named "cardinal" buoys after the cardinal points (north, south, east, and west) of the compass:

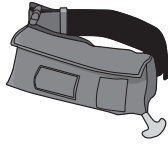

### Surprisingly Comfortable

Today's life jackets are lightweight, easy to move in, and come in many sizes, styles, and shapes for every person and every sport. (There are even ones for pets!) Some examples:

**Inflatable**

for general recreational boating

**Belt Pack Inflatable**

for general recreational boating

**Vest-Type Flotation Aid**

for personal watercraft, waterskiing, and water sports

**Child Hybrid Inflatable**

for general recreational boating

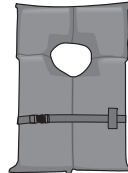

**Child Life Jacket**

for general recreational boating

**Flotation Aid**

for general recreational boating

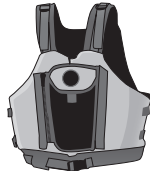

**Vest Type**

for general recreational boating

**Inflatable Fishing Vest**

for angling and hunting

**Paddling Jacket**

for paddlesports

**Offshore Vest**

for offshore boating and racing

## Emergency Rescue Procedures

### ACCIDENT REPORTING

Boat Operators involved in an accident must provide their name, address and vessel registration to other involved parties, provide assistance and, in case of death or disappearance report the accident to law enforcement officials.

Boat operators or owners must also make a written report of a boating accident to the Department of Boating and Waterways when:

1. A person dies
2. Personal injury requiring medical treatment beyond first aid
3. Total vessel damage exceeding \$500
4. Complete loss of the vessel
5. Disappearance of a person or person(s) from suspected injury or death.

This report must be made within 48 hours of the accident in cases involving disappearance, a death that occurs within 24 hours of the accident, or injury that requires medical treatment beyond first aid.

If you are unsure how to report a boating accident, simply call the Coast Guard's toll-free **BOATING SAFETY HOT-LINE at 1-800-368-5647** for information.

### CAPSIZING

If the boat is too large or heavy to right by yourself, do not attempt to swim away; **STAY WITH THE BOAT** and wait to be rescued. **KEEP YOUR LIFE JACKET ON.** If the boat is small and light enough to right, swim around the boat and grab or climb on the windward rail (the side of the boat sticking up in the air) to pull the hull back in the water. If your boat has a centerboard, pull down or stand on it to see-saw the boat upright. If it's a sailboat, uncleat the sheets (lines) that holds the sails in place; if you don't, the sails can fill with air as soon as the boat is righted and tip it over again.

### MAN OVERBOARD

If **YOU** fall overboard, your main concern is to stay afloat. If you are not wearing a life jacket and cannot grab a personal flotation device, try to catch air in your clothing for buoyancy. In cold water, don't expend too much energy; tread water very slowly, or if wearing a life jacket, assume the huddled H.E.L.P. (Heat Escape Lessening Posture) position to conserve body heat. Try to make your head and shoulders as visible as possible so rescuers can spot you.

If **SOMEONE ELSE** falls overboard, immediately steer the vessel toward the side he fell off. Post a lookout. Throw the victim a life ring or other personal flotation device, plus a lifeline with a bowline loop at the end to slip over his body and under his arms. If available, throw out a maneuverboard pole, a buoyed, counterweighted pole with a highly visible flag on top to alert other boaters of the victim's presence and to mark the spot for the rescue boat. Stop the forward progress of the boat by taking the engine out of gear, or by luffing the sails on a non-powered sail boat. Alter your course 90 degrees and prepare to come alongside the victim for rescue.

### RESCUING A VICTIM WITH YOUR BOAT

When coming alongside someone in the water to perform a rescue from your boat, if possible, pick the victim up on the windward (upwind) side of the boat (the approach suggested by the American Red Cross and the United States Yacht Racing Union). Put the engine in neutral as soon as you are next to the victim so there is no propeller turning which might cause serious injury. Put a sturdy swimmer's ladder over the side and have at least one crew member put on a life jacket and prepare to help the victim. If the victim is unconscious or unable to climb the ladder or assist in his own rescue (which is especially difficult in rough seas), he may need to be hauled onboard by several crew members, either by a lifeline or by his clothing.

An alternate rescue method suggested by the Coast Guard is to have someone onboard stand on one end of a blanket or net. The opposite end should be placed under and then wrapped over the victim and pulled by the person overboard. By doing so you can roll the victim out of the water and onto the boat.

*To all who have passed  
but have never left our hearts...*

*The Dash*  
by Linda Ellis

*I read of a man who stood to speak at the funeral of a friend.  
He referred to the dates on the tombstone from the beginning...to the end.*

*He noted that first came the date of birth and spoke of the following date with tears,  
but he said what mattered most of all was the dash between those years.*

*For that dash represents all the time that they spent alive on earth.  
And now only those who loved them know what that little line is worth.*

*For it matters not, how much we own, the cars...the house...the cash.  
What matters is how we live and love and how we spend our dash.*

*So, think about this long and hard. Are there things you'd like to change?  
For you never know how much time is left that can still be rearranged.*

*If we could just slow down enough to consider what's true and real  
and always try to understand the way other people feel.*

*And be less quick to anger and show appreciation more  
and love the people in our lives like we've never loved before.*

*If we treat each other with respect and more often wear a smile,  
remembering that this special dash might only last a little while.*

*So, when your eulogy is being read, with your life's actions to rehash...  
would you be proud of the things they say about how you spent YOUR dash?*

*May you all be blessed.*

# Pickering Wharf Marina

## Description of Facilities

Pickering Wharf Marina is a full service facility located in Salem, Massachusetts. Our docks surround Pickering Wharf, a mixed-use development consisting of retail shops, restaurants, office space, and residential condominiums. We offer summer and protected winter dockage to power and sail boats up to about 55 feet, and transient dockage for boats up to 120 feet. Both 30 and 50 amp electrical service is available, along with telephone and cable television hook-up. We have clean showers, heads, and laundry facilities.

**Location: Salem Sound • 978-744-2727**  
**LAT: 42.519987 N LON: -70.889751 W**  
**VHF Channel: 9**

During the summer months, our helpful dock staff is on duty from 8:00 am to 10:00 pm. Our approach and alongside depths are a little better than 7 feet at mean low water.

## Marina Approach & Docking

From the Red 16 marker in Salem Sound, take a course heading of 217 degrees True, putting you inline with Red 2 Day Marker in the center of Salem Harbor. After passing Red 2 Day Marker to starboard, come West and head 273 degrees True, toward the Red 4 flashing buoy. Passing the Red 4 flasher to starboard, you will be able to identify a small white lighthouse with the black top visible at the end of Derby Wharf. Keeping the lighthouse off to the starboard and the Green 5 Marker to port, head straight down the channel towards the S/V 'Friendship' and just off your port bow you will see the entrance to Pickering Wharf Marina.

## At A Glance

**Dockage Rate:** \$185/ft-Summer, \$62/ft-Winter, \$3.00/ft-Night, \$10/ft-Week, .25/ft Hourly-2 hour min.  
**Payment:** Due on arrival  
**Hours:** 8 am – 10 pm  
**Transient Slips/Total Slips:** 3/100  
**VHF/Working:** 9  
**MLW/LOA\*:** 7'/120'

**Electric:** 30/50 amp
