## ACKNOWLEDGEMENTS

The Massachusetts Boating & Yacht Club Association, Inc. is honored to present the 2005 edition of the Yearbook.

As you will notice, we have changed the cover of the Book to include a photograph of one of our Member Clubs. This year's cover is of Bourne Yacht Club. Bourne is celebrating their 20th anniversary and we thought it would be appropriate to honor them.

In a year like this, with boaters being the target of many a new tax or fee, it is more important than ever to work as a team to protect our common interests. This Book and other donations allow us to continue in this vein.

Again this year, I would like to thank Commodore Cheryl Chisholm, PC Ted Chisholm and the rest of the Board for their help. Their team approach makes the production of this publication easier.

We have taken on a new printer this year and I would like to welcome John Winter and staff from The Ink Spot in Quincy. They have been very cooperative and will be giving me the files to publish on our website.

A handwritten signature in black ink, appearing to read "John J. Stewart".

John J. Stewart  
Vice Commodore

# MASSACHUSETTS BOATING & YACHT CLUBS ASSOCIATION

## FOREWORD

The Massachusetts Boating and Yacht Club Association, Inc. present our yearbook in the interest of all boaters.

The objectives of the Association are to encourage safe yachting, seamanship and navigation, and to monitor and report on proposed legislation affecting the boating public, and to actively support legislative issues which are important to boaters and yacht clubs.

The Officers and the Board of Directors of your Association thank you for your support in public hearings, making financial contributions, contacting legislators and writing letters to oppose detrimental legislation. It is only through a unified effort that we will be able to continue to economically enjoy the ocean resorts available to us along the coastline of the Commonwealth.

We extend our appreciation to the United States Coast Guard and its auxiliary, The United States Power Squadrons, and the Harbormasters of our cities and towns. We also thank the MDC, the State Police and the Division of Law Enforcement for their contributions to safe boating.

We extend a special thanks to the 100% booster clubs and those clubs who offer the organization the hospitality of their facilities for our monthly meetings.

To all, we wish a happy and safe boating season.

## COMMODORE'S REPORT

It is my great pleasure to present our 2005 Yearbook for your enjoyment.

I wish to thank all clubs and the many advertisers for their participation in making this Yearbook possible. A special “Thank You” goes to those 100% clubs for their support and Vice Commodore John Stewart for the countless hours in making this 2005 edition.

I wish to thank our MBYCA Delegates, Host Clubs, and the many others who have helped spread the word on the many issues that have affected us this year for their support. MBYCA rests on their strengths and diligence.

The Board of Directors of MBYCA deserves special thanks for their hard work, time and effort in making this year productive.

We look forward to working with all of the yacht clubs this coming year to promote favorable legislation, safe boating, and camaraderie.

Regards,

Cheryl Chisholm  
Commodore

# *Congratulations to*

State Senator

**MICHAEL W. MORRISSEY**

*for earning the*

*Massachusetts Boating & Yacht Clubs Association*

*Legislator of the Year Award.*

Since he was a boy racing in Quincy Bay, Senator Michael Morrissey has had the interests of boaters in mind. The Senator is an accomplished sailor, whose experience on the water uniquely qualifies him to understand and represent the interest of boaters.

Recently, Senator Morrissey has filed several Bills to protect the interest of boaters and he deserves our strong support. Please get involved and understand the issues that affect our recreation and call on your elected officials to work with Senator Morrissey in ensuring that boaters have a voice in the State House.

MBYCA offers the Senator our thanks for his work on our behalf.

# MICHAEL W. MORRISSEY

*State Senator*

## **INVITATION**

### **2005 Thunderbird International Regatta - Boston JULY 24-29, 2005**

*If you love the tranquility of the sunset beyond the horizon, the orange-purple sky reflecting in the deep blue colors of the sea; if you love the salty spray and wind in your face and the feeling of youth no matter your age; if you love the rushing water's song under your keel, the calling sounds of seagulls and the moonlit bay on a balmy summer night, - you are one of us.  
Welcome to the sea, skipper!*

*If you love the excitement at the docks, the rounding of a buoy, the beating to the wind and the run with the spinnaker; if you love the races, fierce competition, the regattas and the limelight of victory, the trophies you cherish, the fellow you beat; if you love the speed of your boat, the gunwale awash, the pressure on your tiller and the sky above - you are one of us.  
Welcome to the sea, skipper!*

*We invite you to join us to admire the sunset on our cruises, to take home the trophies on our races. The Massachusetts Bay Thunderbird Association, Fleet 5, invites, welcomes all, who love the sea to compete in the 2005 International Regatta.*

*You too, skipper.*

(L-R) Jim Malloch, Rhonda DeCicco, Ron Bookman, Rachel Ryan, Dave Stockbridge, Jennifer Watson

### Tidal Heights and Depths

- SPRING TIDES** - tides of increased range, occurring twice a month, around the times of the new and the full moons.
- NEAP TIDES** - tides of decreased range, occurring twice a month, around the times of the waning and the waxing half moons.
- DIURNAL INEQUALITY** - the difference in height of the two daily low waters or of the two daily high waters. It is a result of the moon's (and to a lesser extent, the sun's) changing declination.
- MEAN HIGH WATER, SPRING** - the mean of high water heights of spring tides
- MEAN HIGH WATER** - the mean of all high water heights; the charted clearance of bridges, etc. is measured from this height.
- MEAN HIGH WATER, NEAP** - the mean of high water heights of neap tides
- MEAN LOW WATER, NEAP** - the mean of low water heights of neap tides
- MEAN LOW WATER** - the mean of all low water heights
- MEAN LOW WATER, SPRING** - the mean of low water heights of spring tides
- MEAN LOWER LOW WATER DATUM** - the mean of the lower low water heights; charted depths originate from this reference height or datum

## The Inn at Crystal Cove

ON BEAUTIFUL BOSTON HARBOR

**617-846-9217**

**1-877-966-8447** (Out of State Only)

600 Shirley Street • Winthrop, MA 02152

Fax: 617-846-9274 • email: [ccove@tiac.net](mailto:ccove@tiac.net)

website: [www.inncrystalcove.com](http://www.inncrystalcove.com)

The Inn at Crystal Cove is a comfortable, colonial-style hotel located in a residential neighborhood of Winthrop, MA

### Across the street from the Winthrop Yacht Club and The Crystal Cove Marina

Winthrop is a pleasant seaside town conveniently located just ten minutes from Logan International Airport and only a short distance by car or public transportation from downtown Boston. The inn overlooks Crystal Cove, a part of scenic Boston Harbor, with a beautiful, unobstructed view of the harbor and the Boston skyline. Boats from yacht clubs adjacent to the

Inn enhance the New England seaside atmosphere. Enjoy the view from our swimming pool and heated spa!

There is also a park with basketball courts located next to the Inn. We offer furnished hotel rooms in a friendly, casual atmosphere, at sensible rates. Complete living facilities are available for our guests' use: a fully equipped kitchen, lounge area, laundry, and well-lit parking lot. Parking is free to guests. All rooms have air conditioning, cable televisions, and telephones that accept incoming as well as outgoing calls. Local outgoing calls are free.

We have a number of rooms that have balconies with harbor views. In addition to our standard hotel rooms, we also offer TEN studio apartments with private kitchenettes, for a total of 37 rooms.

### **THE INN AT CRYSTAL COVE**

Prices range from \$89.00 to \$129.00.

We welcome the overnight, weekly, or long-term guest.

We look forward to seeing you!

*The most experienced marine insurance agency in  
Southeastern Massachusetts and The Islands.*

The Almeida & Carlson Insurance Agency has a 30 year tradition of being one of the leading providers of Marine Insurance for private and commercial Boat

Owners,  
Marinas, Boat  
Yards & Yacht  
Clubs along  
the entire  
coast of the  
United  
States.

We represent a carefully selected group of financially sound insurance companies and consistently monitor their performance to ensure the best possible premiums and service.

Our Marine Insurance Division is staffed by individuals who have had many years of practical pleasure and commercial boating experience. Having been raised in a traditional New England fishing family, we have gained valuable and useful experience serving as crew members on former family owned fishing vessels, Skip Jack, Seven Seas, Sol E Mar, and currently (time permitting) the Sportfisherman, The Indemnity.

## Distance of Visibility

Given the curvature of the earth, can you see a 200' high headland from 20 miles away? (Answer below.) How far you can see depends on visibility, which we will assume here to be ideal, and the heights above water of your eye and the object.

To find the theoretical maximum distance of visibility, use the Table below. First, using your height of eye above water (say, 8'), the Table shows that at that height, your horizon is 3.2 n.m. away. Then, from our Lights and Fog Signals section (pp. 161-181), your chart, or the Light List, find the height of the object (say, 200'). The Table shows that object can be seen 16.2 n.m. from sea level. Add the two distances: 3.2 + 16.2 equals 19.4 n.m.

Answer: *not quite!* (Heights below in feet, distance in nautical miles)

Ht.	Dist.	Ht.	Dist.	Ht.	Dist.	Ht.	Dist.	Ht.	Dist.
4	2.3	30	6.3	80	10.3	340	21.1	860	33.6
6	2.8	32	6.5	90	10.9	380	22.3	900	34.4
8	3.2	34	6.7	100	11.5	420	23.5	1000	36.2
10	3.6	36	6.9	120	12.6	460	24.6	1400	42.9
12	4.0	38	7.1	140	13.6	500	25.7	1800	48.6
14	4.3	40	7.3	160	14.5	540	26.7	2200	53.8

**Speak Slowly and Clearly.** Use: Ch. 16 (156.8 MHz) or 2182 kHz or CB Radio Ch. 9

## I. DISTRESS SIGNAL (top priority)

If you are in DISTRESS (i.e. when threatened by grave and imminent danger) transmit the International DISTRESS call on either 2182 kHz or 156.8 MHz (Channel 16) — “MAYDAY MAYDAY MAYDAY, THIS IS (Your vessel’s name and call sign repeated three times)”

**IF CALLING FROM A VESSEL IN TROUBLE** — give:

1. WHO you are (Your vessel’s call and name).
2. WHERE you are (Your vessel’s position in latitude/longitude or true bearing and distance in nautical miles from a known geographical point. Local names known only in the immediate vicinity are confusing).
3. WHAT is wrong (Nature of Distress or Difficulty, if not in Distress).
4. Kind of assistance desired.
5. Number of persons aboard and condition of any injured.
6. Present seaworthiness of your vessel.
7. Description of your vessel (length, type cabin, masts, power, color of hull, superstructure and trim).
8. Your listening frequency and schedule.

**IF CALLING WHILE OBSERVING ANOTHER VESSEL IN DIFFICULTY** — give:

1. Your position and the bearing and distance of the vessel in difficulty.
2. Nature of Distress or Difficulty.
3. Description of the vessel in Distress or Difficulty, (see item 7 above).
4. Your intentions, course and speed, etc.
5. Your radio call sign, name of your vessel, listening frequency and schedule.

If there is no immediate response, repeat appropriate messages above; if still no response, you may send on any other available frequency until you make contact.

**IF YOU HEAR A MAYDAY CALL** — Immediately discontinue any transmission. Note details in your radio log right away. Do not make any transmission on this DISTRESS channel until MAYDAY condition is lifted by the Coast Guard, unless you are in a position to be of assistance.

## II. URGENCY SIGNAL (second in priority)

If you have an URGENT message to send (threat to a vessel’s safety or to someone on board, overboard or within sight), use the same procedure as above but say the word “PAN” three times. “PAN” (pronounced “PAWN”) is also used as a warning signal that a Distress Signal may be sent out at a later stage. Radio telegraph signal is — (T) — (T) — (T)

## III. SAFETY SIGNAL (third priority)

If you wish to report navigation or weather warnings (ice, derelicts, tropical storms, etc.) use the same procedure as above but say the word “SECURITY” (pronounced SAY-CUR-I-TAY) three times. Radio telegraph signal is — ••• — (X) — ••• — (X) — ••• — (X)

**OTHER DISTRESS SIGNALS** — Flag Hoist “NC”; Flying ensign upside down; Hoisting any square flag with a ball above or below it; Flames in a bucket; Red flare or rocket; Orange smoke; Dye marker; Flashlight ••• (S) — — — (O) ••• (S); Firing a gun repeatedly; Fog horn sounded continuously; Raising and lowering arms slowly. NOTE: 3 aerial or hand-held flares now mandatory for night use for all vessels over 16’.

# *Orient Heights Yacht Club*

*Dear Members of the Massachusetts Boaters  
and Yacht Clubs Association, Inc.*

*On behalf of the Officers and Board of Directors  
of Orient Heights Yacht Club, we would like to  
welcome all fellow members of MBYCA to visit  
our new facility. As all of you know, our club was  
destroyed by a fire on April 8, 2000. Since then  
we have rebuilt our club. It has been a long five  
years but the wait has been well worth it.  
All the members at Orient Heights Yacht Club  
would like to thank everyone that helped us in our  
time of need.*

**"Girls Inc."**

## RADIO TELEPHONE INFORMATION – VHF SYSTEM

### GENERAL INFORMATION ON THE 156-162 MHz VHF-FM MARINE RADIO

**Calling Guidelines:** Avoid excessive calling. Make calls as brief as possible. Give name of called vessel first, then “This is (name of your vessel),” your call sign, and the word “Over.” If station does not answer, delay your repeat call for 2 minutes. At the end of your message, sign off with “This is (your vessel’s name),” your call sign, and “Out.”

**Range and Power:** Operation is essentially line-of-sight. Since the elevation of antennas at both communications points extends the “horizon,” range may be 20 to 50 miles on a 24-hour basis between a boat and a land station. Effective range between boats will be less because of lower antenna heights. 25 watts is the maximum power permitted.

**Interference factor:** Most VHF-FM equipment has 6 or more channels, so it is possible to shift to a clear channel. Like the FM in your home radio, the system is practically immune to interference from ignition noise, static, etc., except under unusual conditions.

**Channelization:** A minimum of 3 channels is required by the FCC. Two are mandatory: Channel 16 (156.80 MHz), the National Distress frequency; and Channel 06 (156.30 MHz), the Intership Safety Frequency. The Coast Guard *strongly recommends* that you have Channel 22 as your third channel.

#### Channel

16  
156.80MHz

#### Purpose and Comments

**DISTRESS and SAFETY:** Ship to Shore and Intership. Guarded 24 hours by the Coast Guard. No routine messages allowed other than to establish the use of a working channel.

**CALLING:** Ship to Shore and Intership. Use Channel 16 to establish contact, then switch to a working channel (see below).

Calling Channel: New England waters. Commercial and pleasure.

09  
156.45 MHz

**Calling Channel:** New England waters. Commercial and pleasure.

06  
156.30 MHz

**INTERSHIP SAFETY:** No routine messages allowed. 06 is limited to talking with the Coast Guard and others at the scene of an emergency, and to information on the movement of vessels.

22  
157.10 MHz  
(21 in Canada)  
161.65 MHz

**COAST GUARD COMMUNICATION** channel. Not guarded by the CG, but after a vessel makes contact with the CG for non-distress calls on Channel 16, they will tell you to switch to and use *only* 22 for communicating. Channel 22 is also used for CG weather advisories and Notices to Mariners. *Times* of these broadcasts announced on Channel 16.

12, 14, 20, 65, 66, 73, 74, 77

**Ship to Shore and Intership:** Port operations, harbor masters, etc. (Your electronics dealer should have local frequencies.)

8, 67, 88

**Commercial (intership only).** For ocean vessels, dredges, tugs, etc.

7, 10, 11, 18, 19, 79, 80

**Commercial only.**

09, 13, 67

**Bridge information.** Monitored 24 hours by commercial craft.

68, 69, 71, 72, 78

**Ship to Shore and Intership, Pleasure craft only.** Shore stations, marinas, etc. The best channels for general communication.

70

**Digital Selective Calling (DSC).** Special equipment required.

24, 25, 26, 27, 28, 84

**Marine Telephone** Operators.

15

**NOAA Weather** Reports – primarily weather channels. WX-1, WX-2, WX-3 (receive only)

# ONE OF NEW ENGLAND'S MOST BEAUTIFUL NATURAL HARBORS

*Get away for a few hours, a few days, or for the summer.*

Get away to Kingman Yacht Center on scenic, sheltered Red Brook Harbor. Transient slips and moorings are still available for select periods this season. Launch service is complimentary. Enjoy swimming at Bassetts Island, a mile-long stretch of white sand beach just a short dinghy ride away. Discover unique clothing and gifts in our shops. Savor spectacular sunsets over drinks and the daily catch at the waterside Chart Room restaurant. All this and more at. . .
